FNBB was looking for a strategic payments technology partner that could offer advanced payments solutions to meet its strategic goals to enhance their service offerings to its respondent bank customers. Aptys' multi-channel payments platform, PayLOGICS, was selected to further develop key functionalities including image cash letter, check adjustments and returns, and faster payments solutions.

“The partnership with Aptys is an integral part of our strategy to enhance our image cash letter exchange service plus assisting our customers with their faster payment initiatives,” said Pax Mogenson, president and CEO of FNBB. “Working with Aptys allows us to continue to support the financial institutions we serve with leading edge technologies.”

Streamlining reconciliation and settlement across multiple payment channels is just one benefit of the PayLOGICS platform. Aptys provides versatile methods of payment creation offering customization for FNBB’s clients. Additionally, it makes it easier to track and research payments, offering enhanced regulatory compliance and unprecedented customer support and expertise. As Aptys and FNBB collaborate on faster payments, this initial project will provide new capabilities to all participants by maintaining an online payment archive with consolidated payment data that is searchable via web-browser.

“Providing FNBB with PayLOGICS is just the beginning of our strategic plan to address our customers’ expanding needs in payments,” said Naseer Nasim, CEO of Aptys Solutions. “Aptys’ infrastructure not only meets FNBB’s current needs in enhancing its image cash letter solution, but it sets them up for future faster payments capabilities, giving them an edge on the competition when RTP and the FedNow Service comes to fruition.”
