

United Heritage Credit Union Modernizes Wire Payments with Aptys PayLOGICS® Single Payments Platform

PLANO, TX, UNITED STATES, January 6, 2026 /EINPresswire.com/ -- [Aptys Solutions®](#), a leading provider of payment solutions for financial institutions, announced today that [United Heritage Credit Union \(UHCU\)](#) has instituted an overhaul of its payments operations by implementing the Aptys ISO 20022-compliant Wires platform, marking a significant milestone in payments modernization.

United Heritage Credit Union, a Texas-based financial institution with \$1.56 billion in assets and 82,000 members, implemented, in Phase 1, the [Aptys Wires solution](#) as part of the PayLOGICS® payments hub to automate real-time payments processing, working directly with Aptys to modernize UHCU's digital payments technology.

“

Together, we've demonstrated how a modern, ISO 20022-ready wires platform can be deployed efficiently and securely, proving what's possible through partnership and shared vision.”

Naseer Nasim, CEO of Aptys Solutions

The Aptys Wires platform offers seamless integration into UHCU's core systems, enabling real-time account validation, balance checks, posting, OFAC screening, and anomaly detection all within a single, fully integrated environment. The solution also supports intuitive wire origination, delivering a streamlined, user-friendly experience while maintaining the highest levels of security and compliance.

“United Heritage has always believed in going the extra mile for our members, and that includes investing in technology that improves efficiency without sacrificing

personalized service,” said Michael Ver Schuur, President and CEO of United Heritage Credit Union. “Aptys took the time to truly understand how we operate today, where we want to go, and

how to get there. This partnership is built on trust, transparency, and a shared commitment to delivering better experiences for our members.”

Implementing wires represents the first step in UHCU's payment modernization journey. Phase 2 of the project includes plans to leverage other modules of the PayLOGICS integrated platform including expanding into Instant Payments (FedNow[®]) and Real Time Payments (RTP) creating a scalable foundation for future innovation.

“This implementation represents an important evolution for Aptys and the financial institutions we serve,” said Naseer Nasim, Chief Executive Officer of Aptys Solutions. “United Heritage Credit Union is a forward-thinking organization that values partnership over transactions. Together, we’ve demonstrated how a modern, ISO 20022-ready wires platform can be deployed efficiently, securely, and in a way that supports long-term payments modernization.”

Aptys Wires is fully ISO 20022 certified and supports financial institutions as they transition to the new global messaging standard, delivering richer data, faster processing, and improved compliance. As part of the PayLOGICS payments hub, the solution provides a future-ready platform designed to support emerging payment rails, including FedNow[®] and RTP[®].
